2023 Oregon Public Employers Salary Survey

THE SURVEY

This premier resource features comprehensive local objective pay data on 198 industry-specific positions. Milliman provides professional, third-party data compilation.

- 20th annual edition

- Designed by a steering committee of public sector employers

- Current actual pay data - a reality check in light of current economic conditions

- Objective, independent, and accurate - professional "third-party" quality control

- User-friendly interactive results - custom data breakouts and reports, plus a detailed PDF report including data breakouts, ancillary data, and graphs, and spreadsheet summaries

- Multiple data breakouts - user selected groups of comparable employers based on geographic location, agency type, size, etc.

- Comprehensive pay data - actual base salary, variable pay, total cash compensation, and salary range data, plus annual salary adjustment trend data

- 36 participating agencies in 2022. More invited for 2023!

2022 SCHEDULE

Data collection begins:	November 10, 2022
Data effective date:	November 1, 2022
